TRACK DAYS GENERAL CONDITIONS

Wait times can be as much as 30 minutes. To avoid this wait arrive before the advertised commencement time. Persons may enter the pit area via the footbridge only, while cars are circulating.

Safety:

A helmet that complies with the Australian Standards is compulsory. Non flammable clothing which includes cover from wrists to throat to ankle is required. If there is any need to stop cars from circulating while on the track then a red flag will be waived and all cars must return to the pits at the end of that lap.

Vehicle Preparation:

You do not need to do much, but a couple of things will ensure your cars reliability and an enjoyable day. Ensure you remove anything that might move or slide around and don't forget to check the boot. Ensure all the cars fluids are topped up especially the engine oil. Do not expect to get through the day if your brake pad light is on, fit some new brake pads first. If you are going to use your car with road tyres, then inflate them to at least 40psi. It will not hurt the tyres and it will make the car feel a lot more secure on the track.

BBQed sausages and bread will be provided free along with drinks for club members on presentation of their membership card. Otherwise it is \$1 per sausage or drink.

Questions:

A **BMW Car Club of Tasmania Inc** authorized member acting a *TRACK DAY COORDINATOR* will be there on the day to carry out the driver briefing and answer any questions. There are always people around with advice on driving and car set-up.
